

EBAJU EDWARD

PROFILE

Data-driven Computer Science student specializing in **Python-based Data Analysis** and **Machine Learning**. I am passionate about extracting actionable insights from complex datasets and ensuring high levels of data integrity through advanced **SQL** and **Excel** modeling.

In addition to my analytical focus, I am a proficient **Backend Developer** skilled in the **Django** framework. I build complex backend systems that drive modern applications, with interest in applying predictive modeling across various sectors. My aim is to ensure that insights lead to impactful solutions across diverse industries.

PERSONAL INFORMATION

Citizenship: **Uganda**

Status: **Single**

Languages: **English, Ateso**

SKILLS

Languages: Python, R, SQL, CSS

Frameworks: Django, Django REST

Data: NumPy, Pandas, Advanced Excel, Machine Learning

Tools: Git, GitHub, VS Code, RStudio

TECHNICAL PROJECTS

HOSPITAL MANAGEMENT SYSTEM (HMS)

Python, Django, SQL

- ◇ Developed a robust backend system for managing patient records, appointment scheduling, and staff databases.
- ◇ Implemented secure data handling protocols and optimized SQL queries to ensure high data integrity and system performance.

AUTOMATED PIG DISEASE DETECTION SYSTEM

C++, Python, Django

- ◇ Engineered a cross-platform system utilizing C++ for hardware logic and Django for the management interface.
- ◇ Integrated predictive logic to identify livestock health issues, demonstrating the application of Machine Learning in Agri-Tech.

SMART SHEEP SORTER

C++, Logic Design

- ◇ Developed an automation project focusing on sorting logic and data classification for identifying sheep ready for shearing.
- ◇ Applied logical programming structures to solve physical sorting challenges, emphasizing efficiency and accuracy.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE. *Makerere University.* **2024–Present**

- ◇ Currently in Year 2. Maintaining a strong focus on computational logic and system design.
- ◇ Key Coursework: Data Structures & Algorithms, Database Management Systems, Discrete Mathematics, Object-Oriented Programming (Python).

UGANDA ADVANCED CERTIFICATE OF EDUCATION (UACE). **Completed**

- ◇ Focused on Physics, Entrepreneurship and Mathematics, providing the analytical foundation for my degree in Computer Science.

CERTIFICATIONS

DATA ANALYTICS ESSENTIALS. *Cisco.*

Sept 2025

- ◇ Validated expertise in data collection, cleaning, and transformation processes using industry-standard methodologies.

INTRODUCTION TO DATA SCIENCE. *Cisco.*

Aug 2025

- ◇ Comprehensive grounding in data science workflows, exploratory data analysis, and predictive modeling foundations.

MACHINE LEARNING & PREDICTIVE MODELING. *Self-Paced.* **In Progress**

- ◇ Focusing on supervised learning, feature engineering, and model evaluation to enhance data-driven decision-making in technical systems.

HOBBIES

Open Sourcing: Actively exploring and contributing to libraries like Scikit-Learn and Matplotlib.

Project Development: Built a Pig Disease Detection website recently for my pig disease detection project.

Miscellaneous: Enjoying music, watching sports, and finding inspiration in films like *The Social Network*.
